Hello,

We write to draw your attention to a new resource that we have developed through the Centre of Excellence in Severe Asthma - [The Severe Asthma Toolkit](#)

We hope that this will become a valuable resource for your practice and teaching, for you and your colleagues.

The Severe Asthma Toolkit is available at toolkit.severeasthma.org.au.

This is an independent and contemporary online education and training resource that provides multidisciplinary clinicians with the latest information and resources to aid in optimising care for people with severe asthma.

The toolkit was developed by a team of multidisciplinary clinicians from around Australia and Internationally. We designed this toolkit to target a broad audience that includes the settings of primary and tertiary care, as well as the many disciplines involved in severe asthma management, including: physicians, nurses, physiotherapists, speech pathologists, pharmacists and psychologists. It is also hoped that the toolkit will allow clinicians in geographically diverse regions access to evidence based education and training.

The Toolkit's modules put information at the fingertips of clinicians, while also serving as a long-term education resource. Modules include:

- [What is Severe Asthma?](#)
- [Diagnosis & Assessment](#)
- [Management](#)
- [Medications](#)
- [Co-Morbidities](#)
- [Living with Severe Asthma](#)
- [Establishing a Clinic](#)
- [Paediatrics](#)
- [Resources](#)

Please feel free to distribute this widely and you may consider adding a link to the toolkit on your website.

If you would like to know more please contact us at: <https://toolkit.severeasthma.org.au/contact/> ,
severeasthma@newcastle.edu.au or on twitter [@SevereAsthmaCRE](https://twitter.com/SevereAsthmaCRE)

Kind regards,

Vanessa McDonald & Peter Gibson (Co-Project Leads, Severe Asthma Toolkit)
